

# Ingeborg Slegers

## PROJECTS

### LET'S GO – JAVASCRIPT WEB APPLICATION

An in-progress independent project designed to expand understanding of ES6 JavaScript. The application's front-end is being created in HTML, CSS, and ES6 JavaScript. The project focuses on fetching, manipulating, and displaying data from multiple APIs.

### THE LOCAL FARMS – ANGULAR WEB APPLICATION

An in-progress independent project designed to expand understanding of Angular. The application's front-end is being created in Angular 7, Angular Material, and CSS. The server uses PostgreSQL, Express, and Node.js.

### NEST – ANGULAR WEB APPLICATION

A group project designed during the span of a two-week sprint during the last 4 weeks at Eleven Fifty Academy. The application's front-end was created in Angular 7, Angular Material, and CSS. The server uses PostgreSQL, Express, and Node.js.

### JARDIN NAPS – ANGULAR WEB APPLICATION

Created in 24 hours, this group project acted as an introduction to Angular during week 8 at Eleven Fifty Academy. The application's front-end was designed in Angular 7 and CSS. Main role was wireframing, designing, and implementing design.

### DEJA BREW – REACT WEB APPLICATION

A project designed during the span of a two-week sprint during the weeks 6 - 7 at Eleven Fifty Academy. The application's front-end was created in React, Reactstrap, and CSS. The server uses PostgreSQL, Express, and Node.js.

## SKILLS

**SOFT SKILLS** – Fluent in English and Dutch, proficient in French, some experience in German and Italian. Problem solving, strong work ethic, teamwork, detail oriented, empathy, communication through Trello, Git, and Slack.

**DEVELOPMENT** – JavaScript (ES5 and ES6), React, Angular 7, CSS, HTML, Bootstrap, Reactstrap, Angular Material, Rest APIs, Node.js, Express, PostgreSQL, Agile/Scrum model – Basic knowledge of Adobe Experience Design and Illustrator, conveying ideas through visualization.
