PROJECTS

NEST – ANGULAR WEB APPLICATION

A group project designed during the span of a two-week sprint. The application's front-end was created in Angular 7, Angular Material, and CSS. The server uses PostgreSQL, Express, and Node.js. It features user authentication via AuthGuard, extracting JWT retained in local storage, and administrative capabilities.

JARDIN NAPS – ANGULAR WEB APPLICATION

Created in 24 hours, this group project acted as an introduction to Angular. The application's front-end was designed in Angular 7 and CSS. It features user authentication via extracting JWT retained in local storage. Main role was wireframing, designing, and implementing design.

DEJA BREW – REACT WEB APPLICATION

A project designed during the span of a two-week sprint. The application's front-end was created in React.js, Reactstrap, and CSS. The server uses PostgreSQL, Express, and Node.js. It features user authentication via protective views and extracting JWT retained in local storage.

TRAVEL LIGHT – API WEB APPLICATION

A project designed in less than one week, with two weeks of training. The object of the project is to call and display data from a third-party API. The application was created using HTML, CSS, and JavaScript.

NO DRAMA LLAMA – HTML WEB APPLICATION

A project designed in less than a week, after one week of training. The application was created utilizing HTML and CSS.

TECHNICAL SKILLS

PROJECT MANAGEMENT – Problem solving, teamwork.

DESIGN – Basic knowledge of Adobe Experience Design, Illustrator, Photoshop, conveying ideas through visualization.

TECHNICAL – CSS3, HTML6, Bootstrap, Reactstrap, Angular Material, React, Angular, Rest APIs, Node.js, Express, PostgreSQL.

EXPERIENCE

GANACHE CHOCOLATIER – PROJECT MANAGER

A comprehensive retail experience at a small, local business specializing in creating handmade chocolate delicacies.

HIGHLIGHT: Project manager in creation of new website for Ganache Chocolatier. Included: wireframing and designing website using Adobe Illustrator, weekly meetings with the team leader, and resulting in the completion of the project in a 4 week timeframe. September 2016 - August 2018

INDY READS – FUNDRAISING & COMMUNICATIONS

Internship at a local non-profit organization at downtown Indy and Boone County. Experience included designing and implementing fundraising events as well as creating and managing digital content for social media to encourage online interaction. Projects provided opportunities for collaborations within Indy Reads and with other local non-profit organizations.

May 2015 – June 2016

WHOLE FOODS MARKET – FRONT END

Cashier at Whole Foods Market in Carmel, IN. Excellent customer service enforced by extensive interaction with customers, quick problem-solving, and strong teamwork skills.

April 2014 – April 2015

UNIVERSITY OF INDIANAPOLIS – IMAGINATION EMPORIUM

Student-run agency focused on designing, creating, and implementing interactive events for small nonprofit organizations in Indianapolis, IN. For example, we advocated for and brought awareness to literacy and education through the use of J. R. R. Tolkien's *The Hobbit* in an afterschool program for students K-12.

January 2010 – May 2013

SKILLS

MULTILINGUAL – Fluent in English and Dutch, proficient in French.

PROJECT MANAGEMENT – Problem solving, teamwork, collaborative.

DESIGN – Creativity, sketch, conveying ideas through visualization, interaction design, detail oriented.

RESEARCH AND DEVELOPMENT – Database analysis and interpretation, strong research skills.
